SUMMARY

Junior Data Analyst with a background in Banking and Investment Sciences and a Google Data Analytics certification. Skilled in data analysis, visualization, and business intelligence, with hands-on experience using Excel, SQL, and Power BI. Strong ability to translate data into actionable insights that support business decision-making.

Education

SCIENCE VALLEY ACADEMY, BS in Banking and Investment Sciences

October 2023 - Present

Experience

Sales Analyst, Re-Lease, part time

May 2026 – Present

Sales Internship, iCareer

May 2026 – Present

Data Analytics, Matsuo-Iwasawa Lab U-Tokyo

April 2026 – Present

- Collected, cleaned, and transformed datasets to enhance data accuracy and usability.
- Conducted exploratory data analysis to uncover trends and actionable insights.
- Developed dashboards and reports for clear communication of findings to stakeholders.
- Collaborated with international teams to drive data-driven decision-making and problem-solving.

Data Analytics, Knowledge4All

June 2025 – Present

- Completed hands-on training in Google Data Analytics, specializing in data cleaning, analysis, and visualization.
- Utilized Excel, SQL, and Power BI to create dashboards and monitor key performance indicators (KPIs).
- Supported data-driven decision-making by extracting actionable insights from real datasets.

Customer Experience Calls, iCareer

March 2026 – April 2026

- Managed inbound and outbound customer calls, ensuring high levels of customer satisfaction.
- Analyzed customer concerns to provide data-driven solutions, enhancing overall experience.
- Documented interactions and tracked recurring issues to support service improvement initiatives.
- Collaborated with team members to optimize call handling processes and reduce response time.

Power Bi, Creativa Hub Alexandria

March 2026 – April 2026

- Developed interactive dashboards in Power BI to visualize essential business metrics.
- Utilized Power Query for data cleaning and transformation, ensuring data accuracy.
- Created DAX measures and calculated columns to enhance data analysis and reporting.
- Collaborated with team members to align business requirements with data solutions.

Tech for Non-Techies Trainee (Digital Tools, Automation & AI), iCareer - Alexandria, Egypt November 2025 – December 2025

- Completed the Tech for Non-Techies – Digitera Program at iCareer, focusing on digital tools and automation.
- Gained hands-on experience with Google Workspace, Notion, Trello, Zapier, Canva AI, and ChatGPT.
- Applied the SCQA framework to develop structured digital solutions for various business challenges.
- Enhanced skills in AI utilization, workflow automation, and professional digital communication.

Egyptian Banking System Model - EBSM

October 2024 – November 2024

- Developed the Egyptian Banking System Model (EBSM) to effectively simulate banking operations in Egypt.
- Analyzed financial data to improve understanding of banking workflows and enhance customer interactions.
- Supported decision-making in risk management and liquidity through comprehensive scenario testing.

course

- **Data Analytics (L2), Google**
- **Artificial Intelligence, IBM**
- **Data Analytics (L1), Google**

APRIL 2025 – Present

June 2026 – February

July 2025-December 2025

Projects

Electronics Store Performance & Customer Insights

Project

- Analyzed electronics store data to evaluate sales performance and customer behavior.
 - Built interactive Power BI dashboards to track KPIs such as revenue, profit, and product performance.
 - Performed data cleaning and transformation using Power Query to ensure data accuracy.
 - Created DAX measures to calculate key metrics and enable deeper business insights.
- Tools Used: Power Bi

Final Project – Tech for Non-Techies (Digitera Program)

- Led the final project for the Tech for Non-Techies – Digitera Program by iCareer, where I designed a complete digital workflow to solve a real business problem using no-code and automation tools. The project included process mapping, task management, data organization, and basic automation using tools such as Google Workspace, Notion, Trello, Zapier, and Canva AI. The solution improved workflow efficiency, reduced manual effort, and enhanced digital communication. The project was built using the SCQA framework to clearly define the problem, analysis, solution, and expected impact.
- Tools Used: Looker Studio

CERTIFICATIONS

- **Huawei Cloud Developer Certification (HCCDA – Tech Essentials), Huawei**
- **Artificial Intelligence Certification, IBM**
- **Data Analytics Certification, Google**

Skills
